But Few Telegraphers Return. REPUBLIC SPECIAL.
Dallas, Tex., Aug. 13.—According to the statement of General Superintendent T. S. McDowell of the Missouri, Kansas and Texas Railway, made this afternoon at

headquarters in Dallas, the telegraphers' strike seems to be at a standstill. The nifike seems to be at a standstill. The niltimatum of the company requiring all who expected to return to report to the superintendent by noon of yesterday, resulted in only a few of the old men go-Week's Bank Clearings.

C. G. WARNER.

TRACTIONS ARE ON THE UP TURN.

LOCAL STOCKS STRONG

Missouri and Lincoln Trust Are Well Taken and Bids Are

Generally Higher.

Local securities were fairly active it vesterday's market. Tractions had the best support. Transit advanced to \$11.8752 and United Railways, preferred, was well taken on the upturn from \$54.50 to \$55.125. The 4 per cent bonds

held firm at \$50.

Missouri Trust was a trifle easier at \$125 and \$125.25 and Lincoln was well taken at \$215 and \$214.50.

The general tone of the market indicated a healthy revival of interest in the local list.

New York Curb Market.

New York Curb Market.

REPUBLIC SPECIAL.

New York Aug. II.—In contrast to the business transacted on recent Saturdays on the curb, trading to-day was fairly active and the interest in the market was more pronounced. Seaboard Issues were again the areas active festures of the market. The preferred said down to II and then bobbed back and forth until the close was near, when it was payvanced to IIIs, American Can preferred showed considerable strength. On no specific news, it advanced from Gly to Gly at the close An effort was made to stir Greene Consolidated Gold Mining, and the stock moved up from 10% to 10%. Interpore was weak, It was opened nearly a point above Priday's closing, but printitaking carried it back to 15.

STRENGTH IN THE STOCK MARKET IS MARKED.

LARGELY A SYMPATHETIC MOVEMENT.

Rumors of Settlement in Iron Pool Give Strength to United States Steel.

New York, Aug. 13 .- The strength in today's stock market was marked, but was largely in sympathy with an active move-ment in prominent stocks. The important center was United States Steel preferred which rose above 60 on an urgent demand in which an uncovered short interest was believed to play an important part.

that the dispute in the trade over the price of steel billets had been settled and price of steel billets had been settled and the danger of a disruption of that and other peois thus avoided. It was rumored that this had been effected by the pur-chase of the Youngstown plant of the Republic Iron and Steel Company, but there was no verification of this rumor. Pennsylvania and its subsultary stocks and the soft coal group fell the sympa-thelic benefit of the movement in United States Steel preferred, especially owing to the large part played in their traffic by iron and steel and the materials for their production.

REALIZING CAUSES HESITATION. In the early market there was som calizing in the Pacifics, and this causes ome hesitution in the general list. Th occasional pressure of profit-taking Metropolitan Securities had the same

Metropolitan Securities had the same effect.

When Southern Pacific broke through its restraint and rose above 56 the whole market took on a more assured tone. Union Pacific did not move in company with its subsidiary stock, and the Western stocks generally were inclined to hang back, except Atchison, which came forward vigorously to 81.

The bank statement was of small influence, although the cash gain failed to come up to the celimate on account, it is believed, of the remittances to Cuba, which complicated the showing. The surplus reserve now stands at such a lifely level that the degree of increase is of little moment. A little realizing in the flux dealings, under cover of an advance in Sugar, made the closing slightly irregular Total rales of bands, par value \$1.95.090.

REVIEW OF THE WEEK, The stock speculation following has been

nore active, broadening as the week more active, broadening as the week progressed. Crop prospects have held belief of the operators, and the divergent outlook for crops have been reflected in confused tendencies in the movement of prices. Early in the week, when the impending Government crop report induced a waiting attitude toward the granger stocks, there was a furious speculation diverted into a group of industrials and specialities, notably the Metropolitan traction stocks, which made sensational advances, and led the market in point of activity on several days.

Many rumors flooded the stress as to the project in contemplation for the control, but no official nor authoritative amnouncements were given out to warrant entire credence in any of them. The belief is very generally held, however, that plans are working out for unifying the control and combining the operation of the surface, elevated and subway traction facilities of the city of New York.

Some credence is given to the further rumors of the inclusion of the Brooklyn Transit and New Jersey trolley companies in the plan thus involving a comprehensive control of all the traction facilities in the city and in the suburban neighborhood. progressed. Crop prospects have held be-

hovered near the gold export point, and engagements for shipment to London have been several tignes made and then canceled. The factor has been the needs of the London money market and the redundancy of our own money market.

With gold flowing into San Francisco, both from Japan and Australia, and with an early prospect of a supply of cotton bills in the exchange market the gold export question has aroused little interest in the atoak market, and has not affected the extreme case of the local money market at all. The outgo to Cuba is viewed with equal indifference. Bailroad earnings as reported show an average improvement, and the Harriman lines have been the subject of special activity and strength, apparently based on the good June net earnings. hovered near the gold export point, and

PICTURE SELLERS ARRESTED. Humane Society Begins Crusade Against Sale of "Souvenirs."

day afternoon began a crusade against merchants and street peddlers who sell Improper pictures under the title of World's Fair souvenirs. Two arrests were made before 1 o'clock

features in a moderately active market yesterday. Outside speculation was much smaller than it had been for several days and the majority of traders were on the selling side. These was a notable absence of rust talk from the Northwest. Advices from the spring-wheat section indicated that temperatures were more seasonable and that there had been no further damage worth reporting. The movement to all receiv-ing points was brisk and the amount in here was more than twice as large us on the corresponding day has even. Thus a weakly compressed and that only a moderate corresponding day last year. Don's weekly ctop report said that only a moderate amount of injury had been done by rust in the Northwest, and that reports from other sections were fairly encouraging, especially as to the rapid progress of harvesting and thrashing winter wheat. Under existing conditions few traders cared to go long over Sunday. While there was no wild rush to unload, selling was rather brisk

and unfavorable weather conditions. There was a fair buying demand through

Sept. wheat opened wasc off and closed wasc off.

Receipts of produce were moderate and prices of fruits and vegetables were genrally steady to higher. Local recurities were in good demand. Transit was the strong feature

Yesterday's bank clearings were \$5,556,968, balances \$62,427. Discount rates were tendy between 62 and 6 per cent. Spot cotton was steady in the local market.

WHEAT VALUES DECLINE

FOREIGN MARKETS ON THE DOWNTURN.

for the week shows: Loans \$1.08.01.06.01. Increase \$1.01.560. deposits \$1.27.12.500. increase \$2.91.100. circulation \$23.20.500. decrease \$13.8.000. legal tenders \$2.502.000. decrease \$13.8.300. specie \$15.8.5.000. increase \$2.502.000. decrease \$13.8.300. specie \$15.8.5.000. increase \$2.502.000. decrease \$13.8.300. specie \$15.8.5.000. increase \$2.502.000. decrease \$1.8.3.000. reserve \$18.8.15.000. increase \$2.502.000. surplus \$17.53.500. surplus \$17.53.500. increase \$1.42.500. exc. United \$13.8.5.1500. The Financier this week says: The official takement of the New York associated banks has week showed, as one of the notable features a gain in cash reserve nearly equal to the amount which was estimated from the traceasis movement of money during the week, the net increase in cash as reperiod in the statement being \$2.152.000, while the estimates ealled for a gain of \$2.55.1500. There was an increase of \$2.08.700 in specie.

Insamuch as the averages of the caporis of gold coin to chibe in the week, which were one and one-fourth milities, were first by note than two and two thirds militions of receips from Australia and other sources. It will appear that the difference between the net unit, resulting from these movements and the increase in specie was due to the binding over of average gains in this term in the previous week. The posits were increased \$2.38.500 and while the reserve gain requirements were \$2.500.000 the position of \$2.500.000 the same and of the course in \$2.500.000 the same and of the reserve in \$2.500.000 the same and of the reserve in \$2.500.000 the same and of the reserve to the prevent and separate same store the same and of the same and of the reserve to the pre
